Fig. 6

FIG. 8 is a cross-sectional view of the device of FIG. 1, taken along line 8-8 of FIG. 1, showing the device in a closed position. The device includes a housing 100, a door 102, and a latch 104. The latch 104 is shown in a closed position, engaging the door 102. The device is shown in a cross-sectional view, with the housing 100 and door 102 being shown in section. The latch 104 is shown in a closed position, engaging the door 102. The device is shown in a cross-sectional view, with the housing 100 and door 102 being shown in section. The latch 104 is shown in a closed position, engaging the door 102.

FIG. 8

FIG. 3

FIG. 13 is a cross-sectional view of a mechanical assembly. It shows a central shaft (130) with a central bore (131). The shaft is surrounded by a housing (136) which has a central bore (132) and a flange (134). The housing is secured by a nut (140) and a washer (142). The assembly is shown in a cross-section with a dashed line indicating the hidden part of the shaft. The label 40 points to the housing assembly.

FIG. 15 is a perspective view of the device 120 in a closed position. The device 120 includes a main body 122 and a clasp 84. The clasp 84 is shown in a closed position, securing the device 120. The device 120 is shown in a perspective view, highlighting its three-dimensional structure.
